**In our release meeting at the Kanzleramt Studio** some sunny afternoon **Ray** didn't quite know which tracks to pick for his next Kanzleramt release. So he started "**Thrill**" right there and then until the track was finished about midnight. Quiet a long meeting that was, but very much worth it. **Everybody meet "Thrill"!**

**Ray Kajioka's** release in September this year "**Sparks**" had some great support from **Funk D'Void, Technasia, Laurent Garnier, Peter Kruder, Ken Ishii, Alan Fitzpatrick, Stephan Bodzin, Adam Beyer** and **Ben Sims**, just to name a view...

Currently **Ray** is **remixing** a new track of **Alexander Kowalski** for **Damage Music, Berlin**.
