ka177 | 12" | digital STERAC 11

Steve Rachmad's first solo 12" on Kanzleramt was on our wish-list for at least a decade. Just in time to start our 25th anniversary series "STERAC - 11" is mastered and ready. Steve is showing all his experience and history so masterfully, that you almost can touch glimpses of the future. "11" is about the meaning of the number 11 and what figures it stands for.

Welcome to our 25th anniversary

Yes, we are a quarter of a century in action and we are celebrating with loads of new original releases. For that we will step it up a notch this year. We have prepared some new contributions for the label along with returning collaborations and artists.
